

## Sahed Alom Sumit

UI/UX Designer & No-Code Web Developer

📍 Helsinki, Finland

### Professional Profile

I help businesses grow online by designing and developing websites that connect with their audience and drive real results. Every project starts with understanding your goals—then I create user-friendly, conversion-focused websites that build trust, increase sales, and make your brand stand out. My focus is on solving business problems through simple, thoughtful, and visually engaging digital experiences that perform smoothly on every device.

I've spent 5 years designing and developing 150+ websites that seamlessly blend creativity with results-driven solutions. Combining UI/UX mastery, no-code expertise and frontend skills to deliver solutions that are as functional as they are beautiful. My bachelor's studies in Business IT (Digital Services) have turned me into creating beautiful and functional digital experiences.

### Work Experience

#### UI/UX Designer & No-Code Web Developer

Fiverr · Freelance

📍 Remote

I've had the opportunity to collaborate with clients from over 10+ countries worldwide, successfully completing 50+ projects independently while consistently earning 5-star ratings. My commitment to quality has resulted in a 40% repeat client rate. I have designed and developed high-performing websites in WordPress and Webflow, integrating advanced features and seamless UI/UX with Figma and Framer. Additionally, I am level 2 seller for a long time, showcasing my expertise and reliability in delivering exceptional digital solutions.

⌚ May 2020 - Present

#### UI/UX Designer & No-Code Web Developer

Upwork · Freelance

📍 Remote

Maintains a 100% Job Success Score across over 10 global projects, specializing in creating custom Figma designs and translating them into pixel-perfect Webflow, WordPress, and Framer websites. Provides full-cycle services from user research to frontend implementation (HTML/CSS/JS), ensuring optimal performance and SEO. Consistently rated 5/5 stars for technical expertise, successfully delivering complex CMS integrations and immersive animations using GSAP and Spline.

⌚ Mar 2021 - Present

#### UI/UX Designer

Vesko · Part-Time

📍 Joensuu, North Karelia, Finland

As part of a small design team, I've been closely involved in Vesko's product design, working on mobile app, desktop webshop, and tablet interface designs. We're also developing the Vesko website, which will serve as both a landing page and a multi-page site. Our goal is to create a seamless, user-friendly experience across all platforms, ensuring the product is both functional and visually appealing.

⌚ Mar 2024 - Feb 2025

#### No-Code Web Designer & Developer

Artic Maze · Full-Time

📍 Chittagong, Bangladesh

I managed website projects from start to finish, using WordPress and Webflow to create custom sites that exceeded client expectations. In WordPress, I built and customized websites using Elementor, WooCommerce, Crocoblock, and other essential plugins to enhance functionality and user experience. I implemented advanced Webflow features like animations, CMS, and 3D Spline, optimizing performance for speed and functionality. I also quickly resolved technical issues to ensure a seamless user experience.

⌚ Feb 2022 - Jan 2024

#### Webflow Developer

Sixforces · Part-time

📍 Remote

I've completed over 40 projects where I turned designs or older websites into clean, modern Webflow sites. I focused on improving content, adding smooth animations, and making each page feel more engaging. I also worked closely with clients on features, integrations, and deployment to ensure everything ran smoothly. Along the way, I optimized loading speed, responsiveness, and overall user experience, while joining weekly meetings to keep communication clear and steady.

⌚ Mar 2023 - Nov 2023
