Professional Profile

My goal is simple: I create websites that don't just look good—they solve problems and drive sales.

I've spent 4 years designing & developing 150+ of websites that seamlessly blend creativity with results-driven solutions. Combining UI/UX mastery (Figma, Framer) with no-code/low-code tools (Webflow, WordPress) and frontend skills to deliver solutions that are as functional as they are beautiful.

With low-code magic, your dream design goes from 'sketch' to 'live site' before you finish your coffee. And my bachelor's studies have tuned me into creating beautiful & functional digital experiences.

Creative Skills

Figma · Canva · Webflow · Framer · WordPress · Photoshop · Illustrator · After Effect · HTML · CSS · JavaScript · GSAP · Blender · Spline · Relume · AWS · SAP · Airtable

Work Experience

Low-code/No-code Developer & UI/UX Designer
May 2020 - Present
Fiverr · Freelance

Remote

I've had the opportunity to collaborate with clients from over 10+ countries worldwide, successfully completing 50+ projects independently while consistently earning 5-star ratings. My commitment to quality has resulted in a 40% repeat client rate. I have designed and developed high-performing websites in WordPress and Webflow, integrating advanced features and seamless UI/UX with Figma and Framer. Additionally, I have met the requirements of a Top Rated Fiverr Expert, showcasing my expertise and reliability in delivering exceptional digital solutions.

UI/UX Designer
Mar 2024 - Feb 2025
Vesko · Part-Time

Joensuu, North Karelia, Finland

As part of a small design team, I've been closely involved in Vesko's product design, working on mobile app, desktop webshop, and tablet interface designs. We're also developing the Vesko website, which will serve as both a landing page and a multi-page site. Our goal is to create a seamless, user-friendly experience across all platforms, ensuring the product is both functional and visually appealing.

WordPress & Webflow Developer
Mar 2023 - Dec 2023
Articmaze · Full-Time

Chittagong, Bangladesh

I managed website projects from start to finish, using WordPress and Webflow to create custom sites that exceeded client expectations. In WordPress, I built and customized websites using Elementor, WooCommerce, Crocoblock, and other essential plugins to enhance functionality and user experience. I implemented advanced Webflow features like animations, CMS, and 3D Spline, optimizing performance for speed and functionality. I also quickly resolved technical issues to ensure a seamless user experience.
